The Future of Healthcare Engagement

Maestro AI is an innovative portal designed specifically for HCPs, providing them with a seamless, efficient, and fully compliant platform for managing their activities, CLM presentations, surveys, and direct communication with sales teams.

What HCPs can do with Maestro AI:

- View All Planned Activities**
Access a complete list of upcoming events, meetings, and engagements.
- Answer Surveys**
Participate in surveys that help shape the future of medical products.
- Direct Communication**
Send messages directly to sales representatives for real-time support.
- CLM Presentations**
Engage with your customized CLM content, tailored to your interests and needs.
- Create New Plans**
Develop and manage your own engagement strategies.
- Digital Consent Management**
Free your sales force from the burden of collecting consent – allow HCPs to add digital consent directly, enabling your team to focus on product promotion.

CLM PRESENTATION DISPLAY

Maestro AI makes it easier for HCPs to access and interact with your product presentations, ensuring a smooth, compliant, and interactive experience.

AI-POWERED MEDICAL CHATBOT: YOUR PERSONAL ASSISTANT

Ask. Listen. Respond.
Maestro's AI chatbot ensures that HCPs never miss out on critical information.

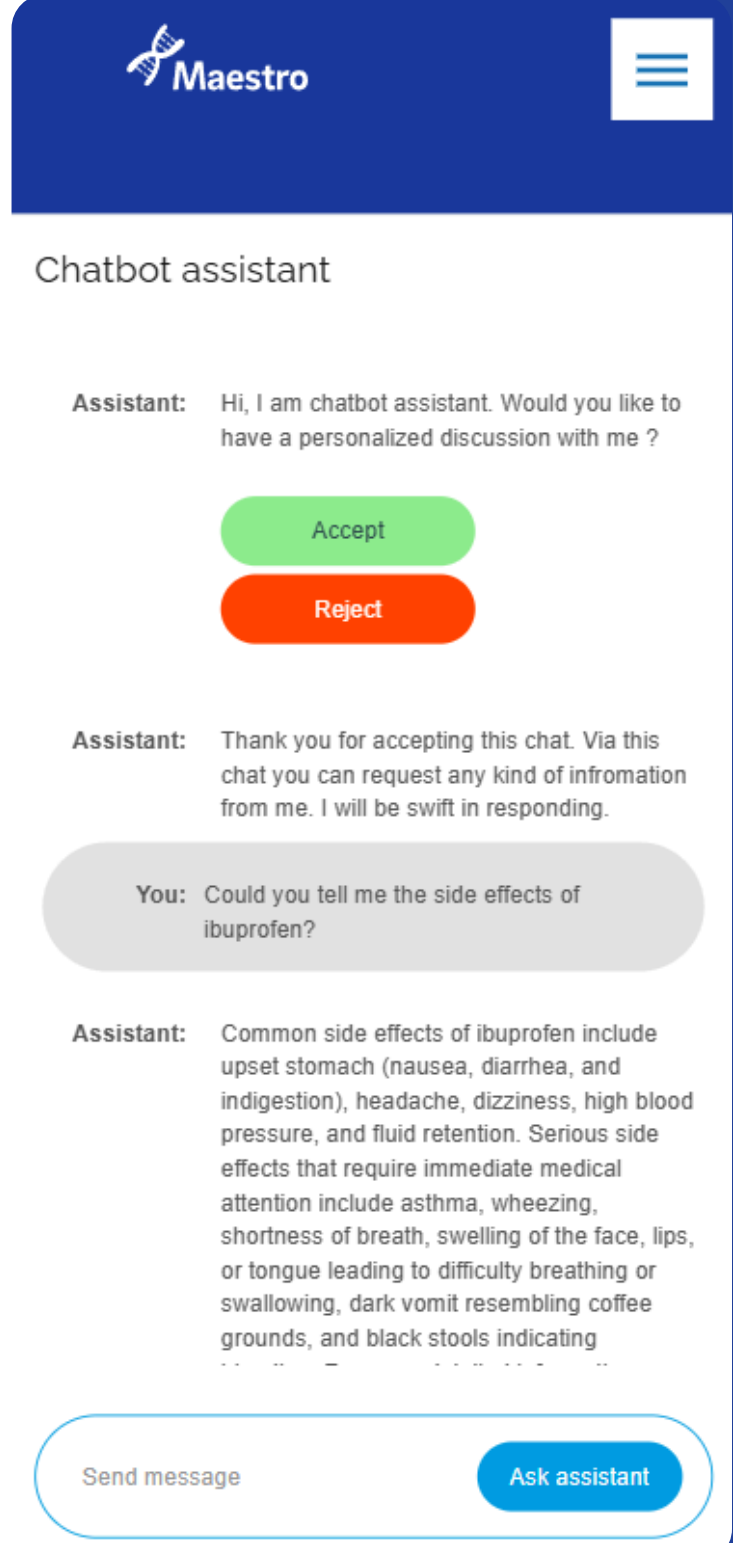

- Interactive Materials Sharing:** Choose the materials you want to share with HCPs and let them chat with our AI-powered assistant for instant, accurate responses.
- Event Participation:** Let doctors inquire about events, ask questions, and even add themselves as participants – all through simple conversation.
- No more missed details –** our bot provides accurate, real-time information, 24/7.

No more missed details. Our bot provides accurate, real-time information, 24/7.

Voice-Activated Medical Assistant

An AI Medical Assistant that delivers the right answers when physicians need them most. Faster, compliant engagement with HCPs. No extra headcount needed.

Ask. Listen. Respond. All in seconds.

ABOUT THE SOLUTION

Pharma companies spend billions on field reps and MSL teams, yet physicians often struggle to access timely, relevant, and compliant medical information.

Our AI-powered Voice Assistant enables real-time medical conversations based on approved SmPC and scientific content. No opinions. No improvisation.

Always compliant.

WHAT WE OFFER ALWAYS

- Voice Interface for Physicians**
Doctors ask their questions through a web browser or phone line. Our AI listens and responds instantly.
 - Real-Time Medical Education**
Answers generated using verified sources like SmPC documents and approved medical content.
 - Built-In Compliance**
All interactions are logged, traceable, and fully aligned with regulatory standards (GDPR, pharma compliance).
 - Scalable Engagement**
It's like adding 100 medical reps to your team, without hiring a single one.
- Security & Privacy
EU-based secure hosting
Encrypted communications
Access restricted to verified HCPs
Full audit trail of all interactions

Real-World Use Cases

Question: "What's the recommended dose of Drug X for patients with moderate renal impairment?"
Answer: "According to section 4.2 of the SmPC, the recommended dose is..."

Question: "What are the most common side effects?"
Answer: "The most frequently reported adverse reactions include..."

Maestro AI brings compliance, speed, and efficiency to medical engagement, allowing HCPs to access critical, accurate information when they need it – all while reducing the workload for your sales and medical teams.
